

AMENDMENTS TO THE SPECIFICATION

On page 1, line 1, please insert the following paragraph:

--CROSS-REFERENCE TO RELATED APPLICATIONS

a1 This application is a continuation of U.S. Patent Application Serial No. 09/680,573, filed October 6, 2000 (now U.S. Patent No. 6,592,223, issued July 15, 2003) and claims the benefit of provisional application 60/222,268, filed July 31, 2000, which applications are hereby incorporated by reference in their entirety herein.--

Please amend the paragraph beginning on page 7, line 32 as follows:

a2 Preferably, the system includes three or more light meters in order to determine the source of multi-directional light relative to the user. This allows for the analysis of glare. Preferably, one separate attachable sensor is used to measure various parameters of the monitor screen. One or more of these may be attached to a retractable cable that allows it to be moved and possibly positioned facing the user's monitor to measure the brightness of the screen.

Please amend the paragraph beginning on page 8, line 3 as follows:

a3 Preferably, the system will includes sensors to measure ambient noise, temperature and humidity. Such information will allows for proper operation of the equipment and also allows for the analysis to take into account the effects of these conditions.
